I got the error Failure [INSTALL_FAILED_SHARED_USER_INCOMPATIBLE] Does the device have to be rooted to sign using the platform keys? I dont want to root my device.. By clicking "Sign up for GitHub", you agree to our terms of service and privacy statement.. I found a, but that doesn't work as expected. 1 1 and changed the icon images of my target apk And packed as another apk file nicely.. I'm trying to code something using the calendar-functionality As there is no support in the emulator, I tried to install the missing apks for CalenderProvider and Calendar.. But when I tried to install the signed APK through ADB on both Sony Xperia X peformance and Samsung Galaxy On5.. system' I have also signed the application as mentioned using sign-apk jar and platform.. I am trying to install WSo2EMM Android system service application as i want silently install apps through Wso2 Agent (sets up a Work Profile). e828bfe731 [BIGBANG ALIVE TOUR IN SEOUL DVDRip](#)
